FAL3103 Industrial Ecology: Literature Course C 5.0 credits

Industriell ekologi: Litteraturkurs C

This is a translation of the Swedish, legally binding, course syllabus.

If the course is discontinued, students may request to be examined during the following two academic years

Establishment

Course syllabus for FAL3103 valid from Spring 2019

Grading scale

P, F

Education cycle

Third cycle

Specific prerequisites

Accepted for PhD studies.

Language of instruction

The language of instruction is specified in the course offering information in the course catalogue.

Intended learning outcomes

The course aims to give doctoral students deepened and / or widened knowledge of Industrial Ecology, their specific research area or within other theoretical or applied topic(s) of importance for the thesis. Specific, detailed learning outcomes are agreed between the PhD student and the examiner before the start of the course.

Course contents

Literature studies within a defined topic, as agreed between the PhD student and the examiner before the start of the course.

Course literature

The literature is agreed between the PhD student and the examiner.

Examination

- RED1 - Reporting, 5.0 credits, grading scale: P, F

Based on recommendation from KTH's coordinator for disabilities, the examiner will decide how to adapt an examination for students with documented disability.

The examiner may apply another examination format when re-examining individual students.

Other requirements for final grade

Written report or oral exam/presentation.

Ethical approach

- All members of a group are responsible for the group's work.
- In any assessment, every student shall honestly disclose any help received and sources used.
- In an oral assessment, every student shall be able to present and answer questions about the entire assignment and solution.
