

# A31H2A History and Theory of Architecture 3:2: Thesis, First Level 3.0 credits

Arkitekturens historia och teori 3:2: uppsats på grundläggande nivå

This is a translation of the Swedish, legally binding, course syllabus.

If the course is discontinued, students may request to be examined during the following two academic years

#### **Establishment**

Course syllabus for A31H2A valid from Spring 2023

## **Grading scale**

P, F

#### **Education cycle**

First cycle

# Main field of study

Architecture

## Specific prerequisites

You should pass the course A11HIB History and Theory of Architecture 1: Introduction to European Architecture 7.5 credits and A21HIC History and Theory of Architecture 2: Architecture and Modernity 9.0 credits

#### Language of instruction

The language of instruction is specified in the course offering information in the course catalogue.

## Intended learning outcomes

After the course the student should be able to

- Independently formulate a historic-theoretical research in relation to a contemporary architectural project and its thematic question.
- Present different strategies of planning such an operative research.
- Analytical and critically transform the research into a written text.
- Reflect on their learning in written or spoken form.

#### Course contents

This course deals with the opportunities and conditions for using historical-theoretical studies as the operative basis for current architectural projects. The majority of the course is directed toward training students in the ability to formulate and translate such studies to their Year 3bachelor's thesis project.

#### **Examination**

• MOM1 - Moment 1, 3.0 credits, grading scale: P, F

Based on recommendation from KTH's coordinator for disabilities, the examiner will decide how to adapt an examination for students with documented disability.

The examiner may apply another examination format when re-examining individual students.

## Other requirements for final grade

The learning outcomes are examined through the records of the design process, and through the outcomes of the course specified assignments. To achieve the approved level (pass) students must have approved tasks, including 80% attendance at lectures, seminars, tutorials and reviews.

A reflection on the individual learning process must be handed in.

Special regulations for completion apply. The rules for completion can be found on the programme web.

## Ethical approach

- All members of a group are responsible for the group's work.
- In any assessment, every student shall honestly disclose any help received and sources used.
- In an oral assessment, every student shall be able to present and answer questions about the entire assignment and solution.
