

# A31REA Representation 3: Processing and Presentation 3.0 credits

## Representation 3: Informationshantering och presentation

This is a translation of the Swedish, legally binding, course syllabus.

If the course is discontinued, students may request to be examined during the following two academic years

## Establishment

Course syllabus for A31REA valid from Spring 2023

## Grading scale

P, F

## Education cycle

First cycle

## Main field of study

Architecture

## Specific prerequisites

You should have passed the course A11REA Representation 1: Drawing Technique and Descriptive Geometry 3.0 credits and A21REA Representation 2: Fabrication and Descriptive Geometry 3.0 credits

## Language of instruction

The language of instruction is specified in the course offering information in the course catalogue.

## Intended learning outcomes

## Course contents

This course deepens students' knowledge of presentation techniques with a focus on various ways of visualizing the city. Students use and develop new tools for studying, handling, and working with information related to urban processes, patterns, and multi-dimensional structures. The focus is on digital techniques.

## Examination

- MOM1 - Moment 1, 3.0 credits, grading scale: P, F

Based on recommendation from KTH's coordinator for disabilities, the examiner will decide how to adapt an examination for students with documented disability.

The examiner may apply another examination format when re-examining individual students.

## Other requirements for final grade

Learning outcome objectives are assessed through students' presentation of their process and results in assignments specified at the start of each course. To pass a course, students must also complete all assignments and have at least an 80% attendance at lectures, seminars, teaching opportunities, and assignment reviews.

A reflection on the individual learning process must be handed in.

Special regulations for completion apply. The rules for completion can be found on the programme web.

## Ethical approach

- All members of a group are responsible for the group's work.
- In any assessment, every student shall honestly disclose any help received and sources used.
- In an oral assessment, every student shall be able to present and answer questions about the entire assignment and solution.
