

# ME1003 Industrial Management, Basic Course 6.0 credits

Industriell ekonomi, grundkurs

This is a translation of the Swedish, legally binding, course syllabus.

If the course is discontinued, students may request to be examined during the following two academic years

## Establishment

Course syllabus for ME1003 valid from Spring 2012

## Grading scale

A, B, C, D, E, FX, F

## Education cycle

First cycle

## Main field of study

Industrial Management, Technology

## Specific prerequisites

Basic eligibility for university studies.

## Language of instruction

The language of instruction is specified in the course offering information in the course catalogue.

# Intended learning outcomes

After the course, you should:

1. Be able to explain how a business as well as leadership, organizing, strategic planning, and management control functions in an industrial organisation.
2. Be able to interpret an annual report from an industrial organisation, as well as be able to calculate and design the different parts of it at a basic level.
3. Be able to explain the structure of the industrial company's stream of payments.
4. Be able to construct, interpret and use cost calculations as part of the decision support for the industrial company's different situations.
5. Be able to connect industrial management to your future area of work.
6. With the departure in your view of industrial management, be able to explain how the different parts of the area fit together related to the objectives of the industrial organization..

## Course contents

Industrial dynamics and the interplay with competitors and stakeholders (customers, suppliers, employees, the society at large and so on), the distinctive character of industrial operations, organization & human resource management, leadership, strategic planning, marketing, cost-volume-profit analysis, accounting, finance and investment, cash-flow analysis, investment appraisal, management control, and costing.

## Disposition

The course is grounded in lectures (with "peer instructions") and exercises. The course ends with a written exam. During the course, a number of optional learning questions that are discussed in a seminar are given, and gives extra points at the first ordinary written examination.

## Course literature

"Företagsekonomi 100", faktabok, av Per-Hugo Skärvad & Jan Olsson, Liber (på svenska), eller "Accounting and finance for non-specialists" av Peter Attrill & Eddie McLaney, Prentice Hall (på engelska).

## Examination

- TENA - Examination, 6.0 credits, grading scale: A, B, C, D, E, FX, F

Based on recommendation from KTH's coordinator for disabilities, the examiner will decide how to adapt an examination for students with documented disability.

The examiner may apply another examination format when re-examining individual students.

## Other requirements for final grade

Written examination.

## Ethical approach

- All members of a group are responsible for the group's work.
- In any assessment, every student shall honestly disclose any help received and sources used.
- In an oral assessment, every student shall be able to present and answer questions about the entire assignment and solution.
