

# SI2911 Project Work II 15.0 credits

## Projektarbete II

This is a translation of the Swedish, legally binding, course syllabus.

If the course is discontinued, students may request to be examined during the following two academic years

## Establishment

Course syllabus for SI2911 valid from Autumn 2007

## Grading scale

P, F

## Education cycle

Second cycle

## Main field of study

Engineering Physics

## Specific prerequisites

Two years of engineering studies.

## Language of instruction

The language of instruction is specified in the course offering information in the course catalogue.

## Intended learning outcomes

After completing this course the participant should be able to

- apply knowledge and skills acquired during their studies
- use independent studies to consolidate and deepen their knowledge and experience
- present the results in a written technical report with requirements on content, structure and language (equivalent to TNC's standards).

## Course contents

An international project carried out in a group of 10 students. The preparation and evaluation is done in cooperation with the course coordinator.

Students are jointly responsible for implementing the project.

The students have to seek sponsorship for the project and travel to the selected country.

## Course literature

Specified for each separate project.

## Examination

- PRO1 - Project, 7.5 credits, grading scale: P, F
- PRO2 - Project, 7.5 credits, grading scale: P, F

Based on recommendation from KTH's coordinator for disabilities, the examiner will decide how to adapt an examination for students with documented disability.

The examiner may apply another examination format when re-examining individual students.

## Ethical approach

- All members of a group are responsible for the group's work.
- In any assessment, every student shall honestly disclose any help received and sources used.
- In an oral assessment, every student shall be able to present and answer questions about the entire assignment and solution.
