Place: Vattenfall, Evenemangsgatan 13, Solna.*

Registration: http://simplesignup.se/private_event/185353/d587cdd045 (Nov 25th)

More information: <https://www.kth.se/swegrids/events/swegrids-conference-2021-1.1110358>

*It will be possible with a digital attendance for the plenary sessions.

The Swedish Centre for Future Electric Grids and Storage (SweGRIDS) is a partnership of academia, industry and public utilities, with major funding from the Swedish Energy Agency. The overall goals are to develop new and improved devices and methods that will help achieve the European Union's targets for greater use of renewable energy sources and improved energy efficiency. The conference provides an annual gathering of all stakeholders of SweGRIDS.

Conference Program

11:00 Registration and networking lunch (poster mounting)

12:00 Welcome Fredrik Carlsson, R&D portfolio manager Vattenfall

12:10 The SweGRIDS program & ideas for future GreenGrids, Rajeev Thottappillil Director & Lina Bertling Tjernberg leader GreenGrids

12:20 Pitch project presentations (ongoing projects)

14:00 Networking coffee break and poster presentations

14:30 Research and developments at Vattenfall

15:00 Closure with handing out the best poster award, Alireza Nami chair of the SweGRIDS board

Meeting with the SweGRIDS board and the International Advisory committee will directly follow the conference.
