

GDH Conference on Sustainability Transformation in and Through Education, Innovation and Research

Contact: Erika Svensson Rössner, erika2@kth.se

Dates and venue of the conference: 13-14 February 2023, @ Teknikringen 1.

Background and goal: This conference invites faculty, students, and others involved in Challenge-Driven Education, for sharing experiences and ideas and initiating collaboration. The conference is co-created by and involves participants from KTH and the GDH partner institutions; Botho University in Botswana, Strathmore University in Kenya, University of Dar Es Salaam, University of Rwanda, and University of Cape Town.

The conference aims at:

- Sharing experiences from challenge-driven education.
- Deepening and expanding KTH's collaboration within KTH Global Development Hub (GDH) and with our African partner universities.
- Identifying paths and means to further support the development and implementation of challenge-driven education (CDE) both at and between KTH and the partner institutions.
- Developing collaboration within education, research and innovation.
- Expand and enhance the exchange of students and faculty between our institutions.
