Step 2. Click **Configure Licensing**

Step 3. Choose *Single Use License* under **License Type** and click **Authorize**

Step 4. Click **Browse** and choose the license file you downloaded. Then, click **Next >**

Authorization Options

You must authorize the software prior to use. Select from the options below.

Authorization Options

- I have installed my software and need to authorize it.
- I have already authorized the software and need to authorize additional extensions.
- I have received an authorization file and am now ready to finish the authorization process.

C:\temp\arcgispro.prvc

Cancel

Step 5. Choose **Authorize with Esri now using the Internet** and click **Next >**

The image shows a screenshot of the 'Software Authorization Wizard' dialog box. The title bar reads 'Software Authorization Wizard' with a close button (X) on the right. Below the title bar, the section is titled 'Authorization Method' with the instruction 'Select the method you want to use to authorize the software.' There are three radio button options: 1. 'Authorize with Esri now using the Internet.' (This automatic method is the easiest way to authorize. It requires an Internet connection.) - This option is selected with a filled radio button. 2. 'Authorize at Esri's website or by email to receive your authorization file.' - This option is unselected with an empty radio button. 3. 'Authorize your software from a local license server.' - This option is unselected with an empty radio button. At the bottom of the dialog, there are three buttons: '< Back', 'Next >', and 'Cancel'. The 'Next >' button is highlighted with a blue border and a mouse cursor is pointing at it.

Step 6. Fill in the form and click **Next >**

Software Authorization Wizard ✕

Authorization Information
We will use the following information to verify our records and authorize your use of the software. (* required field)

*First Name:
