Erfarenhetsutbyte om EBSCOs nya gränssnitt för databaser

- Nu har vi haft det nya gränssnittet för EBSCOs databaser i minst 3 månader och är kanske redo att reflektera om det tillsammans. Efter en kort introduktion blir det tid för att lyfta exempel från undervisning och handledning i det nya gränssnittet: vad funkar bra, vad funkar mindre bra, tips, funderingar och frågor!

På Malmö universitetsbibliotek...

The screenshot shows the Malmö University Libsearch interface. The header includes the Malmö University logo and a language dropdown set to 'Svenska'. The main title is 'Libsearch - Sök artiklar, böcker, journals med mera'. Below this is a search bar with a dropdown menu set to 'Alla fält'. To the right of the search bar are buttons for 'AND', 'OR', and 'XOR'. Below the search bar are buttons for 'Lägg till rad' and 'Radera rad'. To the right of these buttons are buttons for 'Rensa allt' and 'Sök'. On the left side, there is a sidebar with a 'Min översikt' section containing links for 'Projekt', 'Sparade', 'Senaste aktiviteten', and 'Bevakningar'. Below this is a 'Forskningsverktyg' section with a search bar and a list of tools: 'Ny sökning', 'Tidskrifter A-O', 'Sök i andra tjänster', 'Hjälp', and 'Publikationer'. At the bottom of the sidebar is a 'Länkar' section with links for 'Bibliotekets öppettider och kontakt', 'Om nya Libsearch', 'Sökguider', and 'Karta Orkanenbiblioteket'. The main content area shows a 'Filter' section with a 'Sökalternativ' tab selected. Under 'Begränsa dina resultat (1)', there are checkboxes for 'Elektroniskt och tryckt material via biblioteket' (checked), 'Peer review och vetenskapligt material', and 'Printed book / Tryckt bok'. Below this is a 'Bibliotek' dropdown menu set to 'Alla'. At the bottom, there is a 'Publiceringsdatum' section with radio buttons for 'Alla datum', 'Senaste tolv månaderna', 'Senaste fem åren', 'Senaste tio åren', and 'Anpassat intervall'.

EDS (discovery) på nya UI 2/12-2024
FTF (länkserver) på nya UI 5/8- 2025

The screenshot shows the Malmö University EBSCOhost databases interface. The header includes the Malmö University logo and a language dropdown set to 'Svenska'. The main title is 'EBSCOhost databases'. Below this is a search bar with a dropdown menu set to 'Alla fält'. To the right of the search bar are buttons for 'AND', 'OR', and 'XOR'. Below the search bar are buttons for 'Lägg till rad' and 'Radera rad'. To the right of these buttons are buttons for 'Rensa allt' and 'Sök'. On the left side, there is a sidebar with a 'Min översikt' section containing links for 'Projekt', 'Sparade', 'Senaste aktiviteten', and 'Bevakningar'. Below this is a 'Forskningsverktyg' section with a search bar and a list of tools: 'Ny sökning', 'Tidskrifter A-O', 'Hjälp', 'Publikationer', and 'Ämnen'. At the bottom of the sidebar is a 'Länkar' section with links for 'Bibliotekets öppettider och kontakt', 'Om nya EBSCOhost', 'Sökguider', and 'Databaser A-O'. The main content area shows a 'Filter' section with a 'Sökalternativ' tab selected. Under 'Avgränsa dina resultat', there are checkboxes for 'Peer-reviewed', 'Fulltext', 'Referenser tillgängliga', 'Huvudartikel', 'Snabbvisning av bild', and 'CrossRef'. Below this is a 'Publiceringsdatum' section with radio buttons for 'Alla datum', 'Senaste tolv månaderna', 'Senaste fem åren', 'Senaste tio åren', and 'Anpassat intervall'. On the right side, there is a 'EBSCOhost HS/OD' section with a search bar and a dropdown menu set to 'Alla fält'. To the right of the search bar are buttons for 'AND', 'OR', and 'XOR'. Below the search bar are buttons for 'Lägg till rad' and 'Radera rad'. To the right of these buttons are buttons for 'Rensa allt' and 'Sök'. The 'EBSCOhost HS/OD' section also has a 'Filter' section with a 'Sökalternativ' tab selected. Under 'Avgränsa dina resultat', there are checkboxes for 'Peer-reviewed', 'Fulltext', 'Referat tillgängligt', 'Referenser tillgängliga', 'Engelskspråkig', 'Forskningsartikel', 'Exkludera Pre-CINAHL', 'Sök endast igenom Pre-CINAHL', 'Exkludera MEDLINE-poster', 'Evidensbaserad praxis', and 'Människa'.

Search Enhancements

Last Updated: 30 October 2025

- New EBSCO User Interface Updates for Advanced Search and Systematic Reviews
https://connect.ebsco.com/s/article/New-EBSCO-User-Interface-Updates-for-the-Medical-Market?language=en_US

Upcoming Enhancements

We have received valuable feedback from many of our customers about improvements we can make for medical libraries, specifically for managing records from the result list, and to better support systematic review workflows. We have plans to make the following improvements.

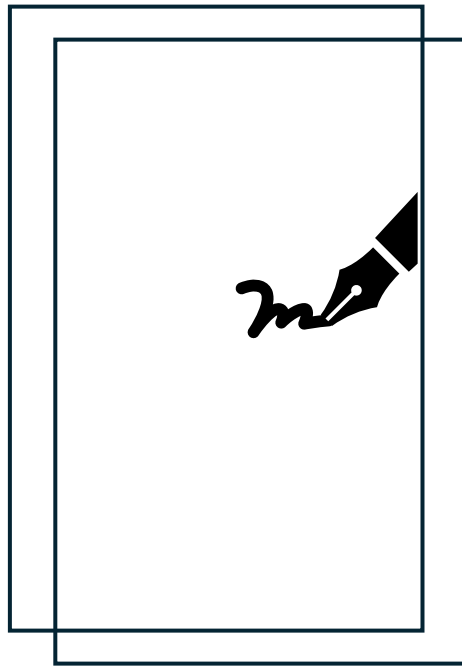

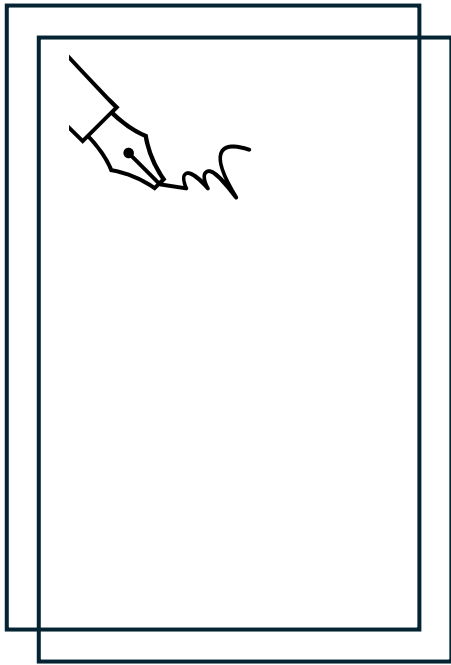

Recently Released

- Migration of saved searches to New UI
- Ability to download custom folders when personalized in New UI
- Honoring the Clear Find Field after Searching setting in EBSCOadmin
- Ability to download search history into multiple formats
- Ability to edit the query of a search via the Saved Search modal or from the Dashboard
- Ability to create a search alert for a combined search
- Enhancements to Explode functionality of APA thesaurus
- Corrections to displaying run and re-run searches, including the ordering of combined searches, on the Search History tab
- Improvements to the combined search icon to make it more intuitive
- Option to see search history directly on the result list
- Retaining 3 search boxes on the EBSCOhost result list when starting the search in Advanced Search
- Ability to bulk delete from Dashboard/ Recent Activity/ Search History

Coming Soon

- Date Filter Enhancements for Date Ranges: only require the starting year; custom date range option on the Date Quick Filter
- Ability to edit Combined Searches
- Ability to save/add to project/email/cite/download more than 50 results at a time, without using max export feature
- Improving design consistency of bulk action toolbars throughout the Results Page and Dashboard pages
- Add 'Suggest Subject Terms'
- Bulk Actions Toolbar on Search History of Advanced Results Page
- Ability to save and manage large sets of searches from Search History (PRISMA's "Search Strategy") on Advanced Results Page
- Ability to view results of a search without rerunning it in Search History and incurring a new S# for the same search
- Display Total Hits until end of the result list (instead of Initial Deduplicated hit count)
- Option to enable Advanced Results Page for EBSCO Discovery Service

Språkinställningar

- Configure default language and region settings: Set the default language, country or region, and time zone to be used across all products on the new user interface at the global level and override them for specific profiles. Users who need a different default can change this on the My preferences page. Set the defaults for all profiles in Global Configuration > Language and region, and change them for specific profiles in Researcher > Language and region.
 - (Vi följer webbläsarens språk i EBSCOhost)
- Set a second official language: Choose a second language that you need to support. This displays a toggle in the new user interface enabling users can quickly switch between your two official languages. Find it in Researcher > Language and region.
 - (Vi har snabbänkningsknappar för byte mellan svenska och engelska)
- https://connect.ebsco.com/s/article/EBSCO-Configuration-Application-Configuring-Language-and-region-settings-for-the-New-EBSCO-Interfaces?language=en_US

Advanced search results page med flera sökboxar och sökhistorik

- Enable the Advanced Search Results page for EBSCOhost: The Advanced Search Results Page provides the Guided Style Advanced Search boxes and an expandable Search History that allows users to combine searches run during the current session. When enabled, users land on it after submitting a search on the Advanced Search page. Find it in Researcher > Search > Advanced search results page
- https://connect.ebsco.com/s/article/New-EBSCOhost-Advanced-Search?language=en_US#advanced

Mina funderingar...

- Knasiga eller saknade översättningar till svenska?
- Problem skapa My EBSCO-konto
- Sökhistorik på resultatsidan?
- Proximity eller AND-sökning som default sökinställning?
- NLS och AI insights – funkar det bra?
- Det har funkat bra på Mau, vid undervisning och handledning, kan söka på det sätt som vi brukar även om det är lite annorlunda...
- En del frågor och fel fångas upp av EBSCO Systems Swedish User Group, men där är fokuset framförallt på systemen, t ex discovery, länkserver och nya admin.
