

# Visualize your Science Summer 2026

## Timeline

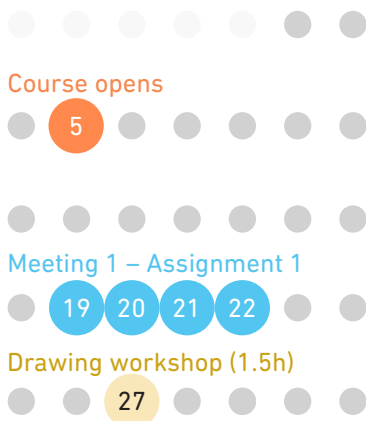

The course opens **on the 5<sup>th</sup> of May**. On that day you will get access to all material and the first assignment. You don't have to be present at any meeting on that date. For each assignment there will be an online feedback meeting. Students only need to be present at one of the available time slots for each meeting

Note: some of the time slots might change depending on how many students are attending the course
