How to Become an Analog Astronaut

- ★ Team
- ★ Extreme sports and resilience to stress
- ★ Training

A group of approximately 15 young people, mostly in their late teens or early twenties, are posing for a photo in a subway station. They are dressed in casual, contemporary clothing like hoodies, sweatshirts, and cargo pants. Some are standing, while others are kneeling or crouching in the front. The background shows the interior of a subway car with glass doors and a tiled floor. The lighting is somewhat dim, typical of an underground transit area. The text "How did I end up There" is overlaid in the center of the image.

How did I end up
There
