

KTH Innovative Centre for Embedded Systems

NEWSLETTER December 2013

ICES WISH EVERYONE A MERRY CHRISTMAS AND A HAPPY NEW YEAR!

➤ **FORTHCOMING ICES RELATED EVENTS!** (see the [ICES Events Calendar](#))

- ☐ **14 January:** The workshop focuses on the evolution of embedded system architectures to support an increasing level of machine autonomy. Multiple industrial domains participate in order to exchange ideas. For more information and to book your seat, please visit this link: [Architectures for Autonomous Machines](#).
- ☐ **3-5 February:** Workshops at Linköping University. The 6th OpenModelica Annual Workshop will be held on Feb 3, 2014. Info at [OpenModelica](#). The 8th MODPROD Workshop on Model-Based Product Development will be held on Feb 4-5, 2014. Registration and info at [MODPROD](#).

We would also like to take the opportunity of giving a hint concerning the following events: iPack is proud to announce "Innovation and Entrepreneurship", a new seminar series part of the iPack Friday Seminars. Its purpose is to illuminate, analyze and illustrate the complex processes of innovation and commercialization in the twilight zone between science and business. Read more about [iPack seminars](#).

➤ **RECENT ICES EVENTS!** (see the [ICES Previous Events Calendar](#))

On 2 Dec ICES, in collaboration with IVA, hosted a well-attended seminar named "Dagens industriföretag är i IT-branschen – nu tar de nästa steg!" The following links contain video presentations of this seminar (please note that the seminar was held in Swedish only!): [Seminar recording part 1](#) and [Seminar recording part 2](#).

ARTEMIS cosummit: Dec. 4-5, Stockholm hosted the 6th edition of the annual Co-summit, with almost 700 participants from industry, academia and public authorities from all over Europe. The Co-summit – organised by ARTEMIS Joint Undertaking on embedded systems and ITEA, the EUREKA Cluster on software-intensive systems and services – featured in particular a project exhibition with representatives from more than 80 European leading R&D&I projects – a useful time for embedded systems networking at the European level.

The cosummit was preceded by the 2nd European Conference on Interoperability for Embedded Systems Development Environments. This ARTEMIS technology conference provided a forum for exchange of ideas among stakeholders representing end-users, tool and platform providers, and standardization bodies, across embedded systems and various IT system domains (ALM and PDM/PLM).

➤ **ICES EDUCATION**

- ☐ During 2014 we will continue our popular company-student presentations. Planned dates are listed below. Location on KTH campus, Valhallavägen will be communicated later on our intranet.

23 Jan kl 15.15-17.00 Semcon presentation

11 Feb kl 15.15-17.00 Company TBD

25 Feb kl 15.15-17.00 Company TBD

- **CONTACT US:** We welcome your ideas and questions! Please email ices-admin@md.kth.se in the first instance.

With Best Wishes as Always!

PS We hope you won't, but if you would like to **UNSUBSCRIBE**, please email us at ices-admin@md.kth.se with "ICES Unsubscribe" in the subject line.
