

Installation Guide

Matlab

Getting started

Before you start the activation of Matlab on a Windows machine, turn off the firewall.

In Matlab KTH agreement **ALL toolboxes are included** and available to be installed but you have to select to install all toolboxes or select **which additional toolboxes to install** (Step 7).

Step 1

Select "Log in with a MathWorks Account" and press **Next**.

Step 5

Follow the instructions to complete the account registration process and proceed with the installation.

Create a MathWorks Account (Step 2 of 2)

You must take the following steps before you can proceed:

1. Check your email for a message from MathWorks.
2. Click on the verification link in this email.
3. Return to this window.
4. Click **Next** to proceed.

Step 9

A last chance to review all the choices before proceeding. If ready, press **Install** to commit.

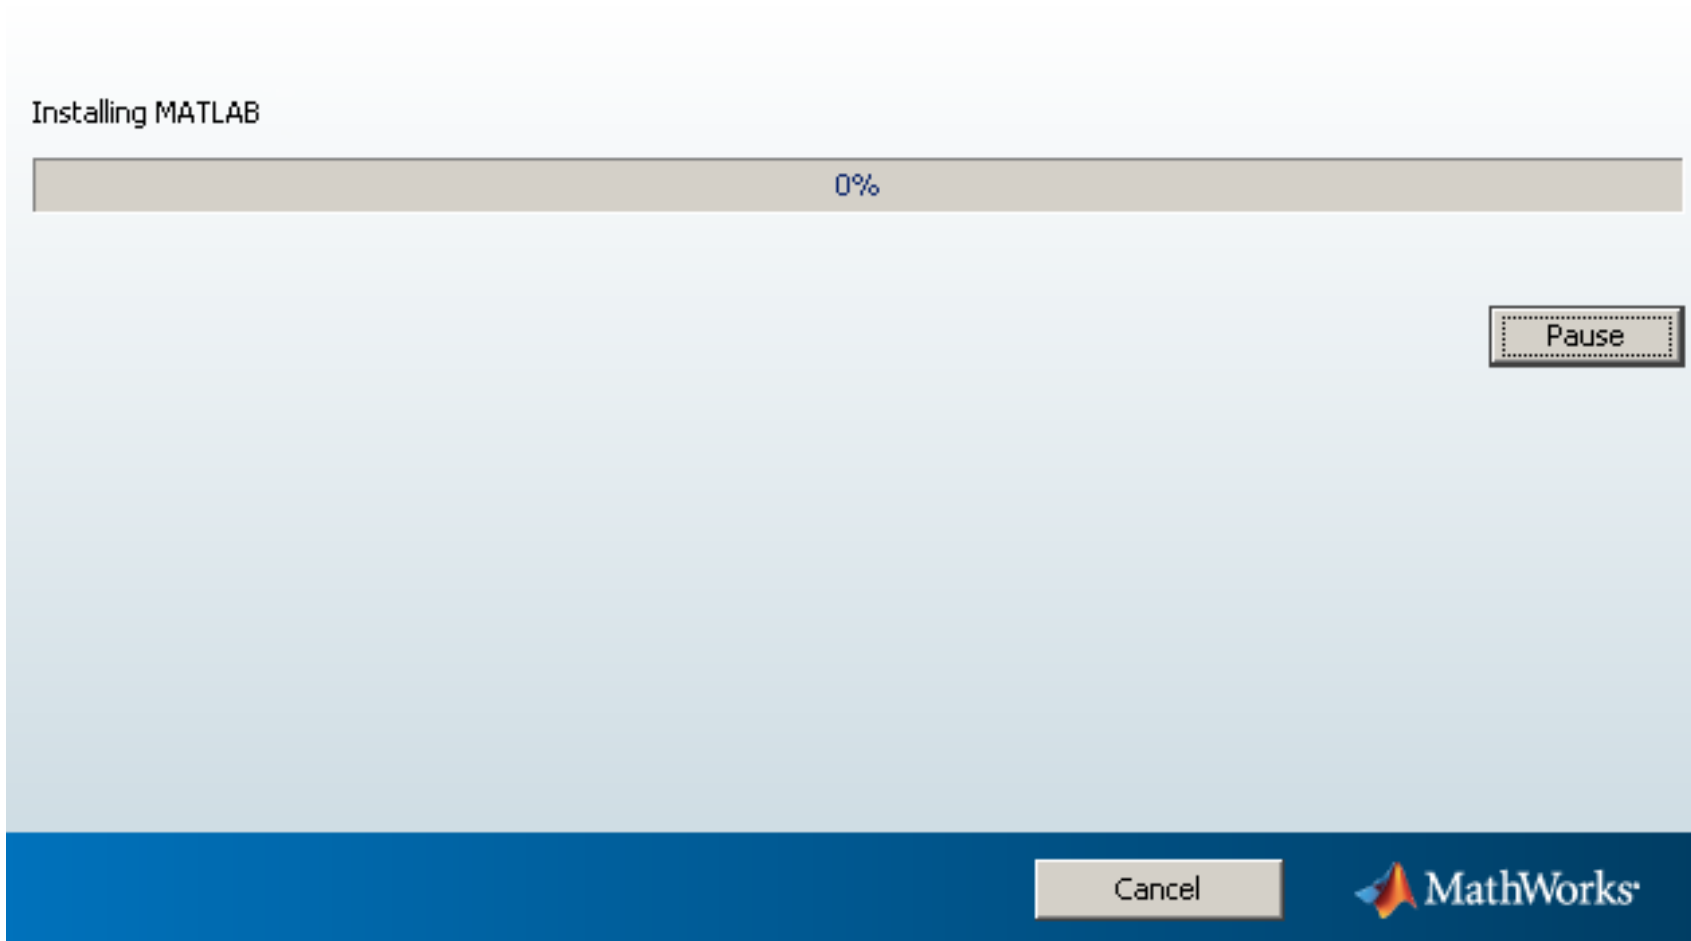

The image shows the final step of the MATLAB & SIMULINK R installation wizard. The window is titled "MATLAB & SIMULINK R" and features a 3D surface plot graphic on the right side. The main content area is divided into several sections:

- License number:** (Empty field)
- Installation folder:** C:\Program Files\MATLAB\R [blurred]
- Installation Size:** 8,784 MB
- Products:**
 - MATLAB
 - Simulink
 - Aerospace Blockset
 - Aerospace Toolbox
 - Bioinformatics Toolbox
 - Communications System Toolbox
 - Computer Vision System Toolbox
 - Control System Toolbox
 - Curve Fitting Toolbox
 - Data Acquisition Toolbox
 - Database Toolbox

At the bottom of the window, there is a blue bar containing four buttons: "< Back", "Install >" (highlighted with a dashed border), "Cancel", and "Help". The MathWorks logo is visible in the bottom right corner.

Step 10

In *some* cases this step may take a very long time. *Temporarily* disabling real-time virus/file scanners, firewalls and other similar products/services might speed up the installation considerably.

Step 11

After the installation, the installer will notify about any requirements if needed. Press **Next** to continue.

Your installation may require additional configuration steps.

1. The following products require a [supported compiler](#):

MATLAB Compiler 5.1

MATLAB Builder NE 4.2.1

Review and make sure all the provided information is correct before you press Activate. It is critical that you specified the correct local user name for the user that will run Matlab on the computer (Windows User name or Mac/Linux login name - case sensitive) in the previous step or you will not be able to start Matlab after the activation (usually with an "Error -9" message).

Confirm activation settings:

License number: 000000

Activation type: Total Academic Headcount Student - Standalone Named User

Activated by: [redacted]

Windows user Name: Brain and Pinky
