

# Odqvist Laboratory Annual User Meeting 2015

## USERS' MEETING 2015

**December 1, 2015 at KTH in Stockholm, Sweden**

We invite our users and collaborators to attend the Odqvist Laboratory Users' Meeting 2015. We are looking forward to welcoming interested scientists from many different disciplines for discussions of the current and future research related to the capabilities of The Odqvist Laboratory for Experimental Mechanics.

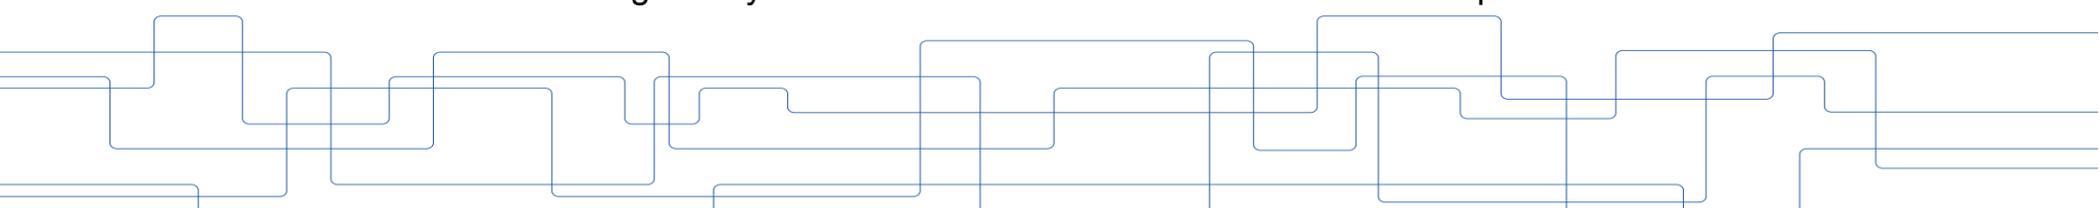

### Tentative Programme

- 8:30 Welcoming
- 8:45 Invited Speaker
- 9:30 Coffee break
- 10:00 Introduction Part 1
- 10:15 Seminar Mechanics @ OPENLAB
- 10:45 Seminar AVE
- 11:15 Seminar Solid Mechanics
  
- 12:00 Lunch @ Open Café
  
- 13:45 Introduction Part 2
- 14:15 Group discussions
- 15:00 Group presentations @ Hugin & Munin
- 16:00 Coffee break  
& Poster Session
- 17:00 Closing

The Odqvist Laboratory for Experimental Mechanics aims to become a world-leading laboratory for studies of Mechanics phenomena in solids and fluids from the micro to the macro-level

Within the MUSCLE project a new generation of optical experimental techniques will be developed to investigate three-dimensional dynamical phenomena within material mechanics, turbulence, biomechanics, suspension flows for materials processing, as well as flow and vibro-acoustic control

The User meeting will be held at OPENLAB (Valhallavägen 79) and Hugin & Munin (Teknikringen 8), KTH  
Please register by November 13 at [www.kth.se/en/sci/centra/odqvist](http://www.kth.se/en/sci/centra/odqvist)
