

Modular schedule at KTH

From the academic year 2015/2016, all courses in the master's programs at KTH use modular schedule. This means that the weeks are split into time slots called *modules*, each course is assigned one or more modules, and the teaching of the course is scheduled within the modules assigned to the course. A student choosing courses from different modules will thus have a completely collision-free schedule.

The table below shows the time slots for the modules during study period 1 and 2, 2015.

	Monday	Tuesday	Wednesday	Thursday	Friday
8–10	A	B	C	D	E
10–12	F	G	H	I	J

The following time slots are used in the examination weeks:
