

## Objectives:

- Determine the requirements for HVDC breakers in HVDC grids
- Conceive, analyze and evaluate new HVDC breaker concepts
- Experimental verification of a down-scaled prototype

## Main achievements so far:

- Two system level studies published

[1] *Modelling of HVDC breakers for HVDC grid simulations, ACDC 2017, Manchester*

[2] *Transient Behaviour of VSC-HVDC Links with DC Breakers Under Faults, EPE 2017, Warsaw*
