Call for support for visits at the University of Tokyo as guest researcher or guest lecturer

KTH together with Karolinska Institutet and Stockholm University is developing cooperation with the University of Tokyo. The partnership will focus on research collaboration, exchange of students and faculty and faculty development.

[More information about the partnership can be found on the KTH website.](#)

The main goal now is to expand contacts between staff in order to increase collaboration into new areas as well as to further strengthen existing collaborations.

At KTH we now open this second call for supporting visits as guest researcher or guest lecturer at University of Tokyo. The call refers to mobility during academic year 2018/19 but the stays can continue into the autumn of 2019.

Granted applications will receive a standard support of 50 KSEK per month for visits between one and four months. Up to 1 MSEK has been granted for this purpose.

Applications should be submitted to Torkel Werge at KTH International Relations Office as e-mail to werge@kth.se Deadline is on May 31st, 2018, at 12.00 am.

Applications should include:

- Description of the intended activities, including information about the intended host at the University of Tokyo, and of any previous cooperation with the people involved (maximum two pages)
- Support letter from the KTH department head or equivalent
- CV with list of publications

The applications will be evaluated by an internal group with Peter Gudmundson as chairman. The decision of nominations will be made at the latest on June 15th. The following aspects will in particular be taken into account:

- Applications from KTH faculty. Young researchers are prioritized.
- Ambition and potential to build up new research and/or education collaboration.
- Strengthening of already ongoing collaborations.
- Scientific level at KTH and at the University of Tokyo.

/Professor Peter Gudmundson
