

### Recommended exercises section 1.1 (1.3)

Do all of the ones marked with [BB]. No others are recommended. (But do more if you need.)

### Recommended exercises section 1.2 (1.4)

Do all [BB]-ones. No others are recommended.

(But do more if you need.)

These two sections. 1.1 (1.3) and 1.2 (1.4)

have very many BB-exercises so I do not think I have to supplement with more.

Focus on the review exercises instead.
