Finding this information *and more...*

A screenshot of a Google search results page. A red box highlights the search bar which contains the query "peters kth projects". Below the search bar are navigation links for "All", "Images", "News", "Videos", "Maps", "More", and "Search tools". A horizontal line separates the header from the results. Below the line, it says "About 75 900 results (0,49 seconds)". The first result is a link to Christopher Peters' project page at KTH, with the URL www.csc.kth.se/~chpeters/projects.html and a snippet of text describing him as an Associate Professor at the Computational Science and Technology Department (CST) School of Computer Science and Communication.
