Homework 6

Scientific Articles

Your homework is to read the scientific article *Recurrent Neural Learning for Classifying Spoken Utterances* by Sheila Garfield and Stefan Wermter applying the technique in *How to Read a Scientific Article* by Mary Purugganan and Jan Hewitt. Links to both articles can be found on on "Seminars and Homework page".

Fill in the template at the end of "How to Read an Article" and hand it in.

Handing in your solution

Please save your solution as a pdf file and hand it in on the peergrade page. Do not write your name in the pdf file.

Peer grading

You will be asked to review the homework of three other students. Your own solution will also be checked in this way.

Your teacher will read your submission and report the result in rapp.
