

Homework 9

Ethical dilemmas

1. Read Walliman Chapter 4 Research ethics
2. Read lecture notes for Lecture 8: Ethics in Science

Look through the twelve *Ethical Dilemmas* and choose four that you want to work with. For each of these four dilemmas, write down notes on the dilemma from the point of view of all three of these ethical theories:

- Utilitarianism
- Duty Ethics
- Contract Ethics

In the seminar you will discuss and argue for an *action plan* (what to do) for one of the dilemmas you worked with.

Handing in your solution

Please save your solution as a pdf file and hand it in on the peergrade page. Do not write your name in the pdf file.

Peer grading

You will be asked to review the homework of three other students. Your own solution will also be checked in this way.

Your teacher will read your submission and report the result in rapp.
