

INVOLVING STUDENTS IN EDUCATIONAL CHANGE

Arvid Nilsson

THS Head of Educational Affairs 2019

YOUR COURSE DEVELOPMENT

- How do you involve students in your course development? Can it be improved?

Think individually for a minute

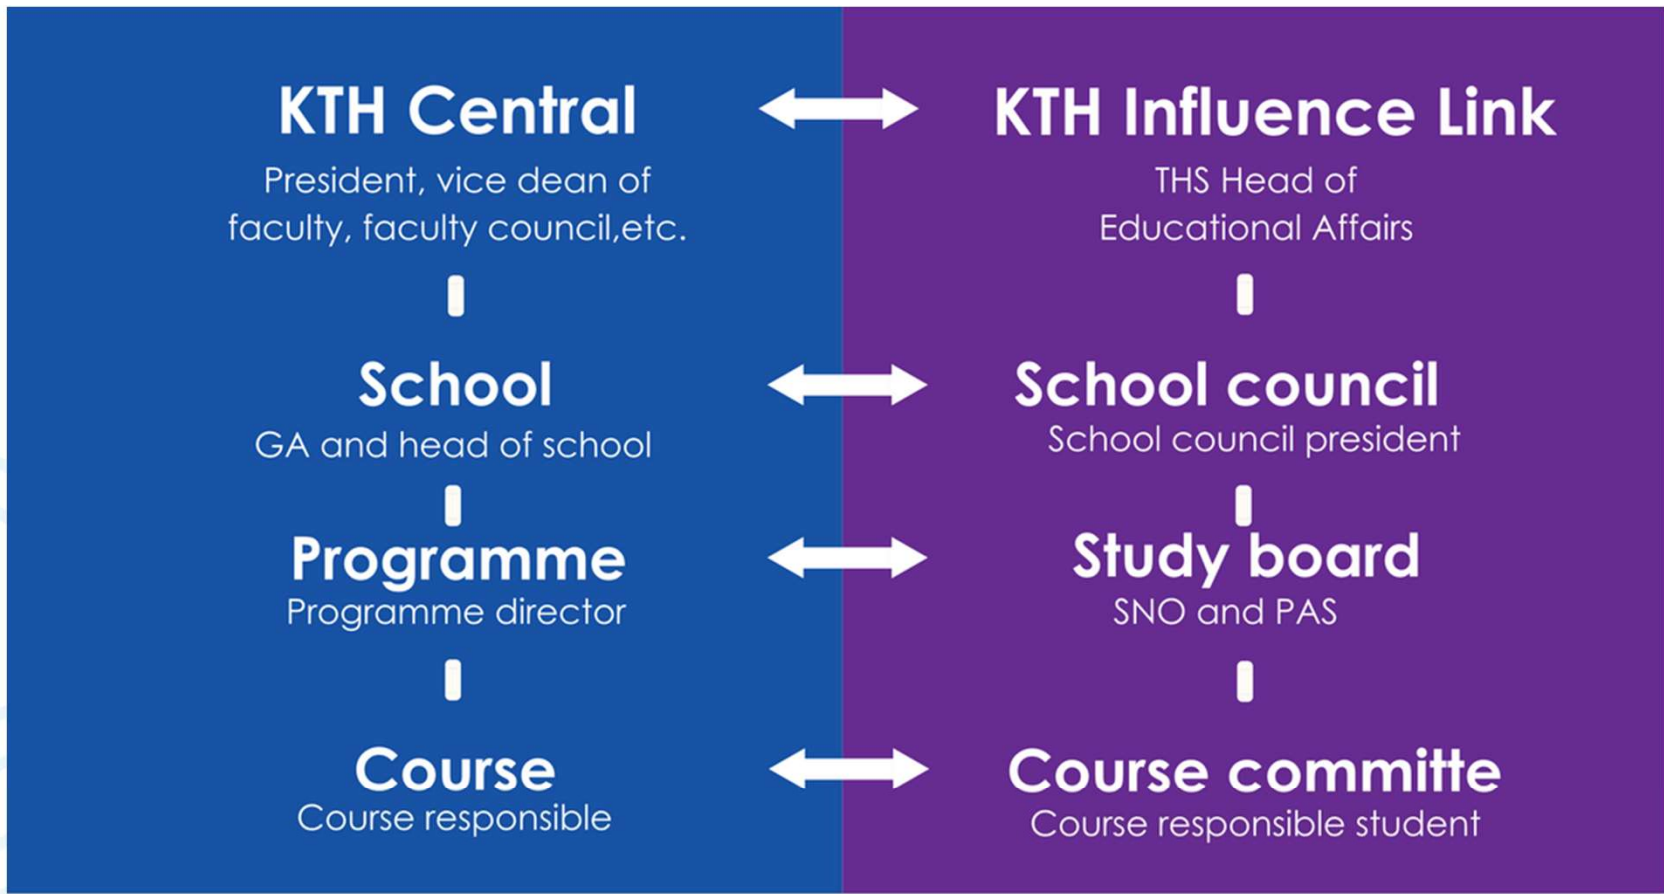

Talk to your neighbor

INVOLVING STUDENTS – WHY?

- The students know what really happens in your course/program
- Students have more motivation than anyone to improve their education

Student

STUDENT REPRESENTATIVES

- ths.kth.se/studrep
- Best if students pick their own representatives
- Make sure that all students know who their representative is

IN CONCLUSION...

- THS principle for working with student influence is to **mirror the organisation of the university**
- Students are the only ones who know what it really is like to be in your course/program – **use them!**
- ths.kth.se/studrep
