

# Study Plan

## Double Degree Students

### Vehicle Engineering

Name:	Date of birth:
Home University:	Start year at KTH:

#### Study profile/specialisation

- Aerospace
  Naval  
 Engineering Mechanics
  Vehicle  
 Sustainable Energy

Version:

Date:

Course code + application code	Course name	Credits	Study period (1, 2, 3, 4)
<b>Semester 1 (autumn semester, period 1 and 2)</b>			
<b>Semester 2 (spring semester, period 3 and 4)</b>			
<b>Semester 3 (autumn semester)</b>			
Degree project (course code)		30	

Please note that you should include AK2030 Theory and Methodology of Science (MJ2510 for the Sustainable Energy Engineering students) and I2210 Ethics and Sustainable Development for Engineers in the study plan (if not studied a similar course before). It is recommended to follow a specific track and not courses from all the tracks in the program. You can only include one extra course above the 90 credits, please mark this course as an extra. The degree project should be added in the study plan but has a separate application form.

Total number of credits:

Approved KTH
