careshare

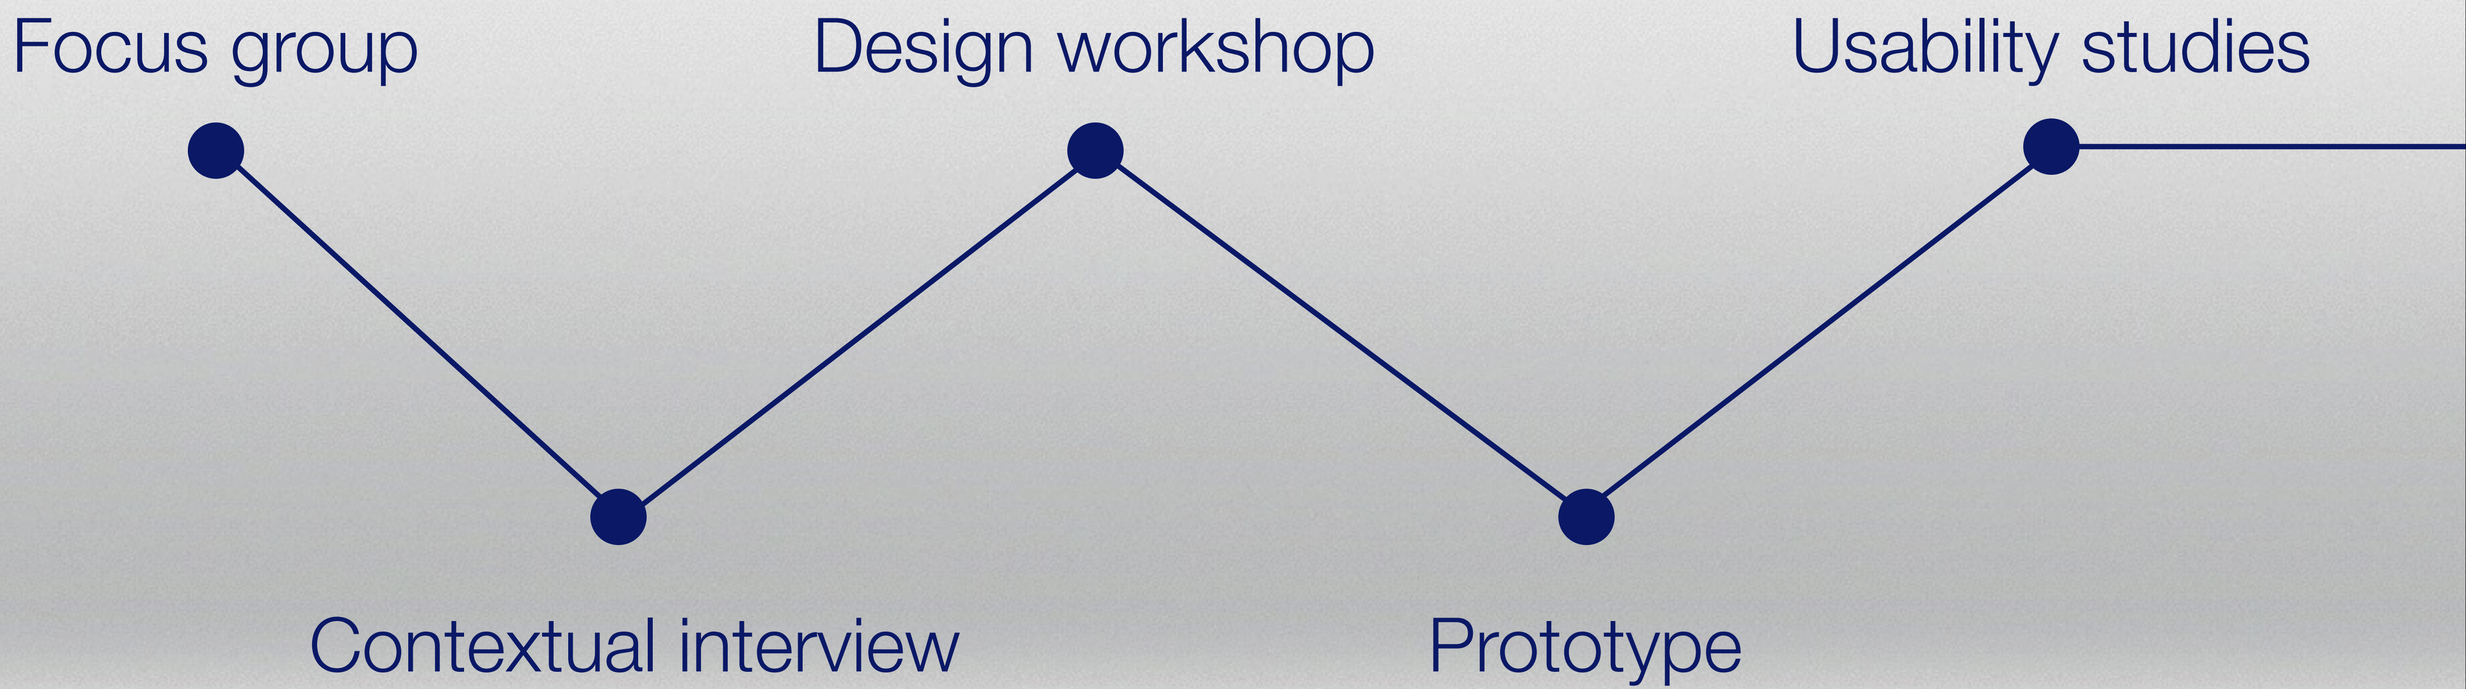
Vision

“Improve the networking between patients and their relatives”

careshare

Design process



careshare

Final prototype

Hospital

Subsidized

Relatives

19 kr / day

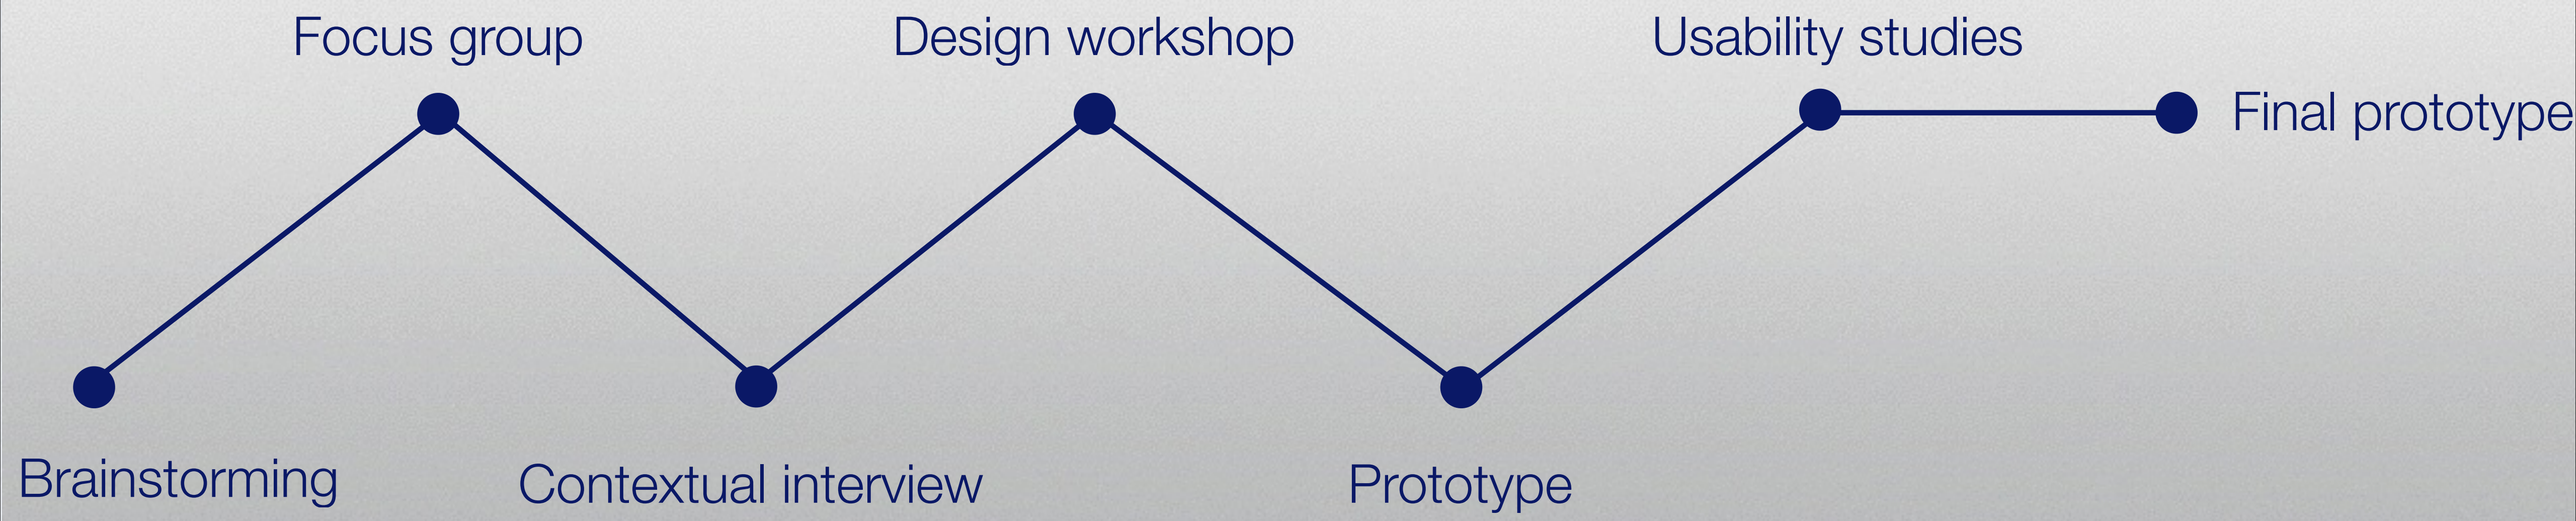
Max 299 kr / stay

careshare

Demo

careshare

My take-aways



1) Mixture is great
- team and target group

2) Learn from failure
- “Failure is experience”

3) Try to work in parallel
- But we ended up settling the design & program it the last two weeks

4) Have team passion
- We knew what we wanted, but fought it each other to get there
