

1N5119 Advanced Course in Research Ethics 4.5 credits

Fortsättningskurs i forskningsetik

Course syllabus for 1N5119 valid from Autumn 10

This is a translation of the Swedish, legally binding, course syllabus.

Grading scale:

Education cycle: Third cycle

Intended learning outcomes

After the course the PhD student should be able to

- independently describe and discuss research ethical problems in her own subject area,
- provide a nuanced account of different possible approaches to specific research ethical problems,
- analyze and discuss ethical arguments in relation to different approaches to research ethics.

Course main content

This course develops themes that were introduced in F1N5115 Introduction to Research Ethics. The focus is on problems that the students choose for their individual project tasks.

Language of instruction

Language of instruction is specified in the course offering information in the course and programme directory.

Eligibility

Entry requirements for PhD studies.

Literature

Course literature will be announced on the course web site no later than four weeks before the course starts.

In previous years, Shamo, A. E. and D. B. Resnik (2003), Responsible Conduct of Research, Oxford University Press: New York has been used as course literature.

Examination

Requirements for final grade

INL1 - Assignment, 3,0 credits

TEN1 - Examination, 1,5 credits
