

AK2017 Introduction to Research Ethics 3.0 credits

Introduktionskurs i forskningsetik

Course syllabus for AK2017 valid from Autumn 18

This is a translation of the Swedish, legally binding, course syllabus.

Grading scale: A, B, C, D, E, FX, F

Education cycle: Second cycle

Main field of study: -

Intended learning outcomes

After completing this course, the student should be able to identify and describe common research ethical problems, and analyze the problems taking relevant empirical factors into account. Moreover, the student should be able to suggest possible solutions to the problems and to justify the chosen solution by means of basic ethical principles.

Course main content

This is an introductory course in research ethics. The course covers the major research ethical problems and concepts, such as autonomy and informed consent, scientific fraud and misconduct, the researcher's responsibility for the consequences of her research, and the relevance of ethical theories to research ethics. Research ethical declarations such as the declaration of Helsinki will be introduced.

The course is offered to students from the natural sciences and engineering and from the social sciences and humanities. Some classes are given jointly, whereas others are given separately for the different groups.

The course is only taught provided at least 5 applicants accept the course spot offered them. Should less than 5 applicants accept their spot, it is possible to take the course as a reading course in consultation with the teacher.

Disposition

The course consists of 5 lectures/seminars. It is taught in English.

Language of instruction

Language of instruction is specified in the course offering information in the course and programme directory.

Eligibility

Higher education studies comprising 120 ECTS in the areas of natural sciences/technological sciences or equivalent. English proficiency equivalent to Swedish *gymnasium* English B.

Literature

Kurslitteratur anslås på kursens hemsida senast fyra veckor innan kursstart.
