Education cycle

Pre-university level

Specific prerequisites

Student admitted to study year 1 of the Degree program in Architecture at KTH, ARKIT.

Language of instruction

The language of instruction is specified in the course offering information in the course catalogue.

Intended learning outcomes

On completion of the course, the student should:

- be able to describe the Degree program in Architecture
- have knowledge of some relevant architectural concepts
- reflect and evaluate their own learning process

Course contents

The aim of the course is that the student should obtain an understanding of, and an overview over KTH's Degree program in Architecture and carry out a group assignment.

Course literature

Anges vid kursstart.

Will be stated at the beginning of the course.

Examination

- MOM1 - Moment 1, 2.0 fup, grading scale: P, F

Based on recommendation from KTH's coordinator for disabilities, the examiner will decide how to adapt an examination for students with documented disability.

The examiner may apply another examination format when re-examining individual students.

If the course is discontinued, students may request to be examined during the following two academic years.

MOM1 - Part 1.2.0 credits, grading scale: P, F

Other requirements for final grade

The expected learning outcomes are examined through presentations of process and results in assignments which are specified at the beginning of the course. Passed written assignments and at least 80% attendance are required.

Ethical approach

- All members of a group are responsible for the group's work.
- In any assessment, every student shall honestly disclose any help received and sources used.

- In an oral assessment, every student shall be able to present and answer questions about the entire assignment and solution.
