

AG2811 Planning for Resilience

7.5 credits

Planering för resiliens

This is a translation of the Swedish, legally binding, course syllabus.

If the course is discontinued, students may request to be examined during the following two academic years

Establishment

Course syllabus for AG2811 valid from Autumn 2014

Grading scale

A, B, C, D, E, FX, F

Education cycle

Second cycle

Main field of study

Built Environment

Specific prerequisites

Same as for the Master program in Sustainable Urban Planning and Design, the track Environment and Planning, or equivalent.

Language of instruction

The language of instruction is specified in the course offering information in the course catalogue.

Intended learning outcomes

The course introduces the participants to different perspectives on complex adaptive systems and their resilience, adaptability and transformability. Epistemological issues are analysed in lectures, seminars and readings, and policy implications discussed. Special reference to the concepts in a planning context will be made.

After passing the course, the participant can:

- Describe different meanings of the major concepts (including resilience, adaptability, transformability, social-ecological systems and complex adaptive systems) and describe how these concepts are related within different theoretical frameworks
- Describe and assess policy and planning implications of these concepts
- Apply the central concepts of the course in a planning context

Course contents

Lectures cover: Resilience, adaptability, transformability, ecosystem dynamics, complex adaptive systems, social-ecological systems, cases from research

The course also includes: Seminars discussing the literature

Course literature

Walker, B and Salt. 2006. Resilience Thinking: Sustaining ecosystems and people in a changing world. Island Press: London

Kommer kompletteras med vetenskapliga artiklar och relevanta internetlänkar.

Examination

- PRO1 - Group Project, 2.5 credits, grading scale: A, B, C, D, E, FX, F
- SEM2 - Seminars, 2.0 credits, grading scale: P, F
- TEN3 - Exam, 3.0 credits, grading scale: A, B, C, D, E, FX, F

Based on recommendation from KTH's coordinator for disabilities, the examiner will decide how to adapt an examination for students with documented disability.

The examiner may apply another examination format when re-examining individual students.

Other requirements for final grade

Written exam on key concepts (TEN3; 3,0 cr). Participation in seminars (SEM2; 2,0 cr). Written group exercise (PRO1; 2,5 cr)

Ethical approach

- All members of a group are responsible for the group's work.
- In any assessment, every student shall honestly disclose any help received and sources used.
- In an oral assessment, every student shall be able to present and answer questions about the entire assignment and solution.
