This is a translation of the Swedish, legally binding, course syllabus.

Establishment

Course syllabus for AI102X valid from Autumn 2010

Grading scale

A, B, C, D, E, FX, F

Education cycle

First cycle

Main field of study

Technology

Specific prerequisites

In general the rule is that the main part of the studies, at least 120 credits should be ready before the thesis work is allowed to start. The examiner must make sure that the student has focused in the relevant area (see last paragraph) and that the main part of the program is ready before the thesis work starts. Exceptions can be made by the person responsible for basic education. The bachelors thesis should normally be written during the last term of the program.

Language of instruction

The language of instruction is specified in the course offering information in the course catalogue.

Intended learning outcomes

The student should:

- Be able to apply relevant knowledge and skills that has been acquired during the program to a given problem.
- Within given bounds, and with limited information, independently be able to analyse and discuss complex issues and be able to handle larger problems on an advanced level within the area.
- Reflect about, evaluate and critically review their own and others scientific results.
- Be able to document and present their own work, for a given group, with high demands on structure, formal requirements and language skills.
- Be able to identify his/hers need of further knowledge and to be responsible for his/hers knowledge development.

Course contents

The course is made up by seminars and lectures concerning research methods, literature search, and writing. A thesis should be written and orally presented as well as an opposition on other students' thesis'. The thesis should be written individually or together with one other student. During the writing of the thesis, students will receive continuous supervision.

Examination

- XUPP - Examination Question, 15.0 credits, grading scale: A, B, C, D, E, FX, F

Based on recommendation from KTH's coordinator for disabilities, the examiner will decide how to adapt an examination for students with documented disability.

The examiner may apply another examination format when re-examining individual students.

If the course is discontinued, students may request to be examined during the following two academic years.

Ethical approach

- All members of a group are responsible for the group's work.

- In any assessment, every student shall honestly disclose any help received and sources used.
- In an oral assessment, every student shall be able to present and answer questions about the entire assignment and solution.
