For single course students:

Completed upper secondary education including documented proficiency in Swedish corresponding to Swedish B and English corresponding to English A and at least 30 university credits (hp) in Business Administration.

Language of instruction

The language of instruction is specified in the course offering information in the course catalogue.

Intended learning outcomes

The basic aim of the course is to give an understanding of principles and methods for management of rental housing and commercial properties.

After the course you should be able to:

- Explain the concept of property management.
- Analyse various financial ratios as a basis for diagnosis and prognosis in property management.
- Explain the principles underlying the rent formation process in the rental market and internally within companies.
- Analyse the advantages and disadvantages in how different property management companies are organized.
- Explain how ethical considerations form part of the property management business.
- Analyse different types of rental contracts from a financial perspective.

Course contents

An applied course in property management with focus on specific governance on each property unit. The course aims at providing the tools necessary to analyze portfolios of rental housing and commercial properties from a management perspective. In addition to the above, the students will be made familiar with the latest research in the property management field.

Course literature

To be announced at the start of the course.

Examination

- TEN1 - Examination, 4.5 credits, grading scale: A, B, C, D, E, FX, F
- ÖVN1 - Assignment, 3.0 credits, grading scale: P, F

Based on recommendation from KTH's coordinator for disabilities, the examiner will decide how to adapt an examination for students with documented disability.

The examiner may apply another examination format when re-examining individual students.

Ethical approach

- All members of a group are responsible for the group's work.
- In any assessment, every student shall honestly disclose any help received and sources used.
- In an oral assessment, every student shall be able to present and answer questions about the entire assignment and solution.
