Education cycle

First cycle

Main field of study

Technology

Specific prerequisites

Introduction to the Planning and Building Process

Language of instruction

The language of instruction is specified in the course offering information in the course catalogue.

Intended learning outcomes

The purpose of the course is to enable the students to understand and explain legal actions necessary in land use transformations.

Course contents

The Swedish legal order. Land use plans. Permits necessary for building. Protection of natural resources and the built environment. Realisation of plans.

Course literature

Literature will be announced at the beginning of the course.

Examination

- INL1 - Assignment, 0.5 credits, grading scale: P, F
- TEN1 - Examination, 7.0 credits, grading scale: A, B, C, D, E, FX, F

Based on recommendation from KTH's coordinator for disabilities, the examiner will decide how to adapt an examination for students with documented disability.

The examiner may apply another examination format when re-examining individual students.

Ethical approach

- All members of a group are responsible for the group's work.
- In any assessment, every student shall honestly disclose any help received and sources used.
- In an oral assessment, every student shall be able to present and answer questions about the entire assignment and solution.
