Education cycle

Second cycle

Main field of study

Built Environment

Specific prerequisites

Completed upper secondary education incl documentet proficiency in English. 120 credits of the Social Sciences preferably Economics and Business Administration.

Language of instruction

The language of instruction is specified in the course offering information in the course catalogue.

Intended learning outcomes

AimThe course is to train participants to carry out valuation of commercial property as part of a group. **Objectives**The course should thus enable participants to apply previous knowledge in Real Estate Investment, Financial and Market Analysis to valuation of real estate and demonstrate understanding of the valuation process by

- Being able to explain the concepts of market value and investment value
- Being able to describe the various methods of valuing income producing property and the conditions under which each method can be applied
- Carrying out valuations of residential and other income producing property in an international team using the income and comparable sales methods
- Writing up a professional report which satisfies Swedish and International Valuation Standards, and
- Communicating the results of the valuation with accuracy and clarity at a seminar, making it a sound basis for investment decision making.

The course should also enable participants to work as part of a team of people with different backgrounds with respect to culture and academic training.

Course contents

Overview of valuation theory and methods; Nordic Housing; Lease analysis; Market Analysis for Valuation Purposes; Comparable sales method of valuation; Income methods; Property taxation; Valuation of forest and farms; Valuation Ethics; Mass Valuation.
