Fastighetsbildningsrätt

This is a translation of the Swedish, legally binding, course syllabus.

Establishment

Course syllabus for AI2507 valid from Autumn 2012

Grading scale

A, B, C, D, E, FX, F

Education cycle

Second cycle

Main field of study

The Built Environment

Specific prerequisites

Land Law (AI1506) or equivalent knowledge.

Language of instruction

The language of instruction is specified in the course offering information in the course catalogue.

Intended learning outcomes

The aim of the course is to provide an understanding for, and knowledge about, the property division and the means of changing it to enable the students to handle complicated situations within the field of real property formation. Studies of precedents and preparatory works as well as the different laws within the field form an important part of the course.

The aim of the course is also to provide an understanding for how different policies regarding land use are displayed in the material regulation of real property formation and how these regulations are co-ordinated with other laws concerning land use.

Course contents

The course deals with:

- The legal framework for changing the property division
- The importance of land use plans and other land use regulations when changes are made to the property division
- The granting of rights in real property. How rights are affected by changes in the property division
- The cadastral procedure. Appeals to the land court
- Historical background on the real property formation of importance for the understanding of the current property division.
