Second cycle

Main field of study

Built Environment

Specific prerequisites

Language of instruction

The language of instruction is specified in the course offering information in the course catalogue.

Intended learning outcomes

The aim with the course is to give the students knowledge in contract law. The course deals both with general questions of contract law, such as formation of contract, agency, invalid contracts and interpretation of contracts, and with certain specific kinds of contract, such as sales, rent of moveables, and different kinds of services.

After having gone through the course the student shall be able to:

- Identify legal problems and indentify applicable legal rules within the subject of contract law.
- Apply and motivate the use of applicable legal rules when solving legal problems in the subject of contract law.
- Analyze and argue for different solutions of legal problems within the subject dealt with in the course.
- Formulate contract clauses.

Course contents

Theoretical and a practical view of the chosen contract forms.

Examination

- TEN2 - Examination, 6.5 credits, grading scale: A, B, C, D, E, FX, F
- ÖVN1 - Exercise, 1.0 credits, grading scale: P, F

Based on recommendation from KTH's coordinator for disabilities, the examiner will decide how to adapt an examination for students with documented disability.

The examiner may apply another examination format when re-examining individual students.

Ethical approach

- All members of a group are responsible for the group's work.
- In any assessment, every student shall honestly disclose any help received and sources used.
- In an oral assessment, every student shall be able to present and answer questions about the entire assignment and solution.
