

# CB1190 Skills for future engineers 2 1.5 credits

## Färdigheter för framtidens ingenjörer 2

This is a translation of the Swedish, legally binding, course syllabus.

If the course is discontinued, students may request to be examined during the following two academic years

## Establishment

Course syllabus for CB1190 valid from Autumn 2022

## Grading scale

P, F

## Education cycle

First cycle

## Main field of study

Biotechnology

## Specific prerequisites

Basic eligibility for higher education studies.

## Language of instruction

The language of instruction is specified in the course offering information in the course catalogue.

## Intended learning outcomes

After passing the course, the student has achieved the following objectives:

- Demonstrate a professional and balanced ethical reasoning within biotechnology,
- Demonstrate the ability to account for general ethical concepts and values that are relevant for the role of engineers in the society.

## Course contents

The course focuses on ethics within biotechnology.

## Examination

- INL1 - Homework 1, 1.5 credits, grading scale: P, F

Based on recommendation from KTH's coordinator for disabilities, the examiner will decide how to adapt an examination for students with documented disability.

The examiner may apply another examination format when re-examining individual students.

## Other requirements for final grade

Active participations in the seminars and the exercises.

## Ethical approach

- All members of a group are responsible for the group's work.
- In any assessment, every student shall honestly disclose any help received and sources used.
- In an oral assessment, every student shall be able to present and answer questions about the entire assignment and solution.
