CK202V Infrared and Raman Spectroscopy in Chemistry 2.5 credits

Infraröd och Raman-spektroskopi i kemi

This is a translation of the Swedish, legally binding, course syllabus.

If the course is discontinued, students may request to be examined during the following two academic years

Establishment

Course syllabus for CK202V valid from Autumn 2023

Grading scale

P, F

Education cycle

Second cycle

Main field of study

Chemical Science and Engineering,Chemistry and Chemical Engineering

Specific prerequisites

Completed bachelor's degreewithin a programme that includes at least 75 university credits (hp) in chemistry or chemical engineering andEnglish corresponding to English B/6.

Language of instruction

The language of instruction is specified in the course offering information in the course catalogue.

Intended learning outcomes

Course contents

Examination

- TEN1 - Written exam, 1.5 credits, grading scale: P, F
- ÖVN1 - Hand in assignments, 1.0 credits, grading scale: P, F

Based on recommendation from KTH's coordinator for disabilities, the examiner will decide how to adapt an examination for students with documented disability.

The examiner may apply another examination format when re-examining individual students.

Ethical approach

- All members of a group are responsible for the group's work.
- In any assessment, every student shall honestly disclose any help received and sources used.
- In an oral assessment, every student shall be able to present and answer questions about the entire assignment and solution.
