DD1395 In-depth Essay in Computer Science 3.0 credits

Fördjupande uppsats i datalogi

This is a translation of the Swedish, legally binding, course syllabus.

Establishment

Grading scale

P, F

Education cycle

First cycle

Main field of study

Technology

Specific prerequisites

Language of instruction

The language of instruction is specified in the course offering information in the course catalogue.

Intended learning outcomes

After having taken the course the student should be able to construct and contexualize a scientific text that in a simple and understandable way explains a theoretical subject or a complex technical system.

Course contents

In-depth work within some subject field of computer science.
Essay work resulting in a well worked out and clear document of 2000-3000 words with good language.

Course literature

McMillan och Weyers: Studera smart - så lyckas du med uppsatser och rapporter.

Examination

• UPP1 - Essay, 3.0 credits, grading scale: P, F

Based on recommendation from KTH's coordinator for disabilities, the examiner will decide how to adapt an examination for students with documented disability.

The examiner may apply another examination format when re-examining individual students.

If the course is discontinued, students may request to be examined during the following two academic years.

In this course all the regulations of the code of honor at the School of Computer science and Communication apply, see: http://www.kth.se/csc/student/hederskodex/1.17237?l=en_UK.

Ethical approach

• All members of a group are responsible for the group's work.
• In any assessment, every student shall honestly disclose any help received and sources used.
• In an oral assessment, every student shall be able to present and answer questions about the entire assignment and solution.
