

DM1578 Program Integrating Course in Media Technology 7.0 credits

Programintegrerande kurs i medieteknik

This is a translation of the Swedish, legally binding, course syllabus.

If the course is discontinued, students may request to be examined during the following two academic years

Establishment

Course syllabus for DM1578 valid from Autumn 2009

Grading scale

P, F

Education cycle

First cycle

Main field of study

Technology

Specific prerequisites

Language of instruction

The language of instruction is specified in the course offering information in the course catalogue.

Intended learning outcomes

The goal and objectives of the course is to give:

- insight in the structure of the Media Technology program and to see connections between courses and subject areas
- options for reflection and documentation of the learning processes and by continually relate the learning to contemporary cross boundary subject areas inside and outside the academy

in order for the students to

- get chances for reflecting on their own learning, learning processes, the conditions for learning, different styles of learning and the social conditions for knowledge
- be able to document their own learning processes in a structured and applicable way and thereby establish routines and practices for lifelong learning
- be prepared to relate the students learning in different courses to contemporary thematic subject areas.

Course contents

The course is based on seminars and lectures that in different ways and from a variety of perspectives touch on the conditions for learning, both in general terms and more specifically related to the studies at the Media technology program. Lecturers and students together decide on subject areas for thematic concentration. The students will use an electronic portfolio, a so called e-folio, for documentation and reflection of their own learning practices.

Course literature

Will be announced at least 4 weeks before course start at course web page.

Examination

- ÖVN1 - Exercises, 3.0 credits, grading scale: P, F
- ÖVN2 - Exercises, 2.0 credits, grading scale: P, F
- ÖVN3 - Exercises, 2.0 credits, grading scale: P, F

Based on recommendation from KTH's coordinator for disabilities, the examiner will decide how to adapt an examination for students with documented disability.

The examiner may apply another examination format when re-examining individual students.

In this course all the regulations of the code of honor at the School of Computer science and Communication apply, see: http://www.kth.se/csc/student/hederskodex/1.17237?l=en_UK.

Other requirements for final grade

The course is valid for 7 university credits, at the three first years of the programme. One examination takes place each year (ÖVN1; 3 university credits, ÖVN2; 2 university credits, ÖVN3; 2 university credits) in the form of individual or small group discussions. In addition the student will develop his or her own electronic portfolio.

Ethical approach

- All members of a group are responsible for the group's work.
- In any assessment, every student shall honestly disclose any help received and sources used.
- In an oral assessment, every student shall be able to present and answer questions about the entire assignment and solution.
