## Establishment

Course syllabus for DM2581 valid from Spring 2013

## Grading scale

A, B, C, D, E, FX, F

## Education cycle

Second cycle

## Main field of study

Computer Science and Engineering, Information Technology, Information and Communication Technology

## Specific prerequisites

## Language of instruction

The language of instruction is specified in the course offering information in the course catalogue.

# Intended learning outcomes

The goal of the course is to give the students:

- knowledge in methods of mediadistribution
- knowledge in telecommunication
- knowledge in data communication

so that they will be able to

- optimize mediacontent for data- or telecommunication.

## Course contents

The course deals with datacommunication and telecommunication in the way of DVB, HDTV, IMS, IPTV and mobile TV.

## Course literature

Course literature will be announced on the course web page at least 4 weeks before course start.

## Examination

- ANN1 - Other Forms of Examination, 3.0 credits, grading scale: P, F
- TEN1 - Examination, 4.5 credits, grading scale: A, B, C, D, E, FX, F

Based on recommendation from KTH's coordinator for disabilities, the examiner will decide how to adapt an examination for students with documented disability.

The examiner may apply another examination format when re-examining individual students.

If the course is discontinued, students may request to be examined during the following two academic years.

In this course all the regulations of the code of honor at the School of Computer science and Communication apply, see: [http://www.kth.se/csc/student/heder-skodex/1.17237?l=en\\_UK](http://www.kth.se/csc/student/heder-skodex/1.17237?l=en_UK).

## Ethical approach

- All members of a group are responsible for the group's work.
- In any assessment, every student shall honestly disclose any help received and sources used.
- In an oral assessment, every student shall be able to present and answer questions about the entire assignment and solution.
