First cycle

Main field of study

Technology

Specific prerequisites

Language of instruction

The language of instruction is specified in the course offering information in the course catalogue.

Intended learning outcomes

After completing the course, the student is expected to be able to:

- give an accurate account of the contents of texts of both a general and a scientific/technical nature
- express him/herself in writing in formal, coherent and correct Swedish in some common text types
- use formal academic engineering vocabulary
- identify, define and use grammatical constructions which are specific to Swedish
- argue orally on a topical issue

in front of a group, give a coherent spoken account of a subject connected to his/her own field of study.

Course contents

- Writing in different genres
- Reading comprehension, both general and technical texts
- Vocabulary idioms and technical vocabulary
- Correctness (grammar in use, syntax, spelling etc.)
- Oral presentation preparation, structure and performance

Disposition

42 lessons divided into 14 sessions x 3 lessons

Compendium

Examination

- ANN1 Oral Presentation, 1.5 credits, grading scale: A, B, C, D, E, FX, F
- TEN1 Proficiency, 1.5 credits, grading scale: A, B, C, D, E, FX, F
- ANN2 Writing Presentation, 3.0 credits, grading scale: A, B, C, D, E, FX, F

Based on recommendation from KTH's coordinator for disabilities, the examiner will decide how to adapt an examination for students with documented disability.

The examiner may apply another examination format when re-examining individual students.

If the course is discontinued, students may request to be examined during the following two academic years.

Other requirements for final grade

75% attendance. Oral proficiency will be continuously assessed (ANN1; 1,5 credits). Written assignments (ANN2; 3 credits). Final examination (TEN1; 1,5 credits)

Ethical approach

- All members of a group are responsible for the group's work.
- In any assessment, every student shall honestly disclose any help received and sources used.
- In an oral assessment, every student shall be able to present and answer questions about the entire assignment and solution.
