Course syllabus for EH1021 valid from Spring 2014

Grading scale

P, F

Education cycle

First cycle

Main field of study

Technology

Language of instruction

The language of instruction is specified in the course offering information in the course catalogue.

Intended learning outcomes

After Active career start you should be able to:

- Describe your characteristics, motivations, interests, experience and skills .
- Specify any alternative areas / professional roles that you are interested in.
- Have a CV and a covering letter .
- Present yourself at job interviews.

Course contents

You will conduct an interview with a professional engineer and then reflect on the engineer's professional role. You will also work with individual exercises and reflections about your characteristics, motivations, interests, experience and skills. The course trains you also to write CVs and cover letters, and preparing for a job interview. This part also presents information on the professional role, including from KTH Alumni Network and from the career follow-ups performed. The purpose is to show you what career paths that are available, which companies are former students are employed at and what positions they have.
