

FAF3005 Project in Structural Engineering 7.5 credits

Projektarbete i byggkonstruktion

This is a translation of the Swedish, legally binding, course syllabus.

If the course is discontinued, students may request to be examined during the following two academic years

Establishment

Course syllabus for FAF3005 valid from Spring 2020

Grading scale

P, F

Education cycle

Third cycle

Specific prerequisites

Entry requirements for PhD studies

Language of instruction

The language of instruction is specified in the course offering information in the course catalogue.

Intended learning outcomes

After completed course, the student will be able to describe the work within a deep project study in the field of structural engineering.

Course contents

The course can be a theoretical or experimental study in the field of structural engineering or it can be a literature review.

Examination

- RAP1 - Project report, 7.5 credits, grading scale: P, F

Based on recommendation from KTH's coordinator for disabilities, the examiner will decide how to adapt an examination for students with documented disability.

The examiner may apply another examination format when re-examining individual students.

The project can be presented orally or in written form, as agreed with the examiner.

Ethical approach

- All members of a group are responsible for the group's work.
- In any assessment, every student shall honestly disclose any help received and sources used.
- In an oral assessment, every student shall be able to present and answer questions about the entire assignment and solution.
