Language of instruction

The language of instruction is specified in the course offering information in the course catalogue.

Intended learning outcomes

To increase the student's knowledge within the area of soil and rock mechanics.

Course contents

Decided in consultation with the supervisor.

Disposition

Decided in consultation with the supervisor.

Course literature

Decided in consultation with the supervisor.

Examination

- PRO1 - Project assignment, 1.5 credits, grading scale: P, F

Based on recommendation from KTH's coordinator for disabilities, the examiner will decide how to adapt an examination for students with documented disability.

The examiner may apply another examination format when re-examining individual students.

If the course is discontinued, students may request to be examined during the following two academic years.

Examination by written or oral presentation of the project assignment.

Ethical approach

- All members of a group are responsible for the group's work.
- In any assessment, every student shall honestly disclose any help received and sources used.
- In an oral assessment, every student shall be able to present and answer questions about the entire assignment and solution.
