G

Education cycle

Third cycle

Specific prerequisites

Participants need to be accepted into a PhD programme in planning studies, urban and regional studies, or a related field.

Language of instruction

The language of instruction is specified in the course offering information in the course catalogue.

Intended learning outcomes

After completing the course, the student will:

- Be able to draw upon the state-of-the-art in current planning theory to advance their own research
- Reflect upon their own work and the work of others in relation to the recent advances in planning theory
- Reflect upon how their own work may contribute to advancing the current research frontier within planning theory

Course contents

- Lectures
- Paper-writing
- Interactive workshop discussions

Course literature

To be decided.

Examination

Based on recommendation from KTH’s coordinator for disabilities, the examiner will decide how to adapt an examination for students with documented disability.

The examiner may apply another examination format when re-examining individual students.

If the course is discontinued, students may request to be examined during the following two academic years.

Written examination (seminar paper) and active workshop participation.

Ethical approach

- All members of a group are responsible for the group's work.
- In any assessment, every student shall honestly disclose any help received and sources used.
- In an oral assessment, every student shall be able to present and answer questions about the entire assignment and solution.
