

FAH3460 Topics in Transport Science, Part 1 3.5 credits

Transportvetenskapliga frågeställningar del 1

This is a translation of the Swedish, legally binding, course syllabus.

If the course is discontinued, students may request to be examined during the following two academic years

Establishment

Course syllabus for FAH3460 valid from Spring 2019

Grading scale

P, F

Education cycle

Third cycle

Language of instruction

The language of instruction is specified in the course offering information in the course catalogue.

Intended learning outcomes

The course helps doctoral students to situate themselves in the broad field of transport science. The students obtain broad knowledge through overview lectures and interact on more detailed topics in seminars, taking various roles (presenter, opponent, listener).

Course contents

Overview lectures covering the broad field of transport science. Participation in scientific seminars within transport science offered by KTH. Participation in national and international conferences.

Specific prerequisites

Enrollment in doctoral program in transport science or similar subjects with completed initial literature review or equivalent.

Course literature

Course literature is decided before each course offering.

Examination

- DEL1 - Participation, 1.0 credits, grading scale: P, F
- SEM1 - Seminars, 2.5 credits, grading scale: P, F

Based on recommendation from KTH's coordinator for disabilities, the examiner will decide how to adapt an examination for students with documented disability.

The examiner may apply another examination format when re-examining individual students.

DEL1: Participation in overview lectures.

SEM1: Seminar presentation, opposition, participation.

Ethical approach

- All members of a group are responsible for the group's work.
- In any assessment, every student shall honestly disclose any help received and sources used.
- In an oral assessment, every student shall be able to present and answer questions about the entire assignment and solution.
