

# FEF3350 Project Literature Course in Electrophysics 5.0 credits

Projektlitteraturkurs i elektrofysik

This is a translation of the Swedish, legally binding, course syllabus.

## Establishment

Course syllabus for FEF3350 valid from Spring 2012

## Grading scale

G

## Education cycle

Third cycle

## Specific prerequisites

## Language of instruction

The language of instruction is specified in the course offering information in the course catalogue.

## Intended learning outcomes

After completed course the students should have knowledge of the scientific literature in the subject area around the thesis.

## Course contents

The literature is decided on a case-by-case basis to cover thesis-related research and scientific techniques, earlier research, and the present state of the art.

## Disposition

Self study under guidance by the thesis advisor.

## Course literature

The literature is decided on a case-by-case basis. Typical contents are 1-3 review papers of the field, and 5 – 15 selected scientific papers around the specific thesis research area.

## Examination

Based on recommendation from KTH's coordinator for disabilities, the examiner will decide how to adapt an examination for students with documented disability.

The examiner may apply another examination format when re-examining individual students.

If the course is discontinued, students may request to be examined during the following two academic years.

## Other requirements for final grade

Seminar(s) given by the student, and one final oral exam.

## Ethical approach

- All members of a group are responsible for the group's work.
- In any assessment, every student shall honestly disclose any help received and sources used.
- In an oral assessment, every student shall be able to present and answer questions about the entire assignment and solution.
