

FHK3007 Seminar Course in Technology and Health 2.5 credits

Seminariekurs i teknik och hälsa

This is a translation of the Swedish, legally binding, course syllabus.

If the course is discontinued, students may request to be examined during the following two academic years

Establishment

Course syllabus for FHK3007 valid from Spring 2021

Grading scale

P, F

Education cycle

Third cycle

Specific prerequisites

Eligible for studies at the third-cycle level.

Language of instruction

The language of instruction is specified in the course offering information in the course catalogue.

Intended learning outcomes

After completion of the course the doctoral student should have the knowledge and ability to

- describe and explain the theories and empirical findings in their specialist area
- present and discuss research findings from their own scientific studies
- critically analyze and evaluate the methods and results from their own and others scientific studies

Course contents

- Participation in scientific seminar
- Reflection on how the content and form of the seminars will/were applied for improving ongoing PhD studies.

Examination

- SEM1 - Seminar, 2.5 credits, grading scale: P, F

Based on recommendation from KTH's coordinator for disabilities, the examiner will decide how to adapt an examination for students with documented disability.

The examiner may apply another examination format when re-examining individual students.

Attendance, oral presentation, opposition, and written report

Ethical approach

- All members of a group are responsible for the group's work.
- In any assessment, every student shall honestly disclose any help received and sources used.
- In an oral assessment, every student shall be able to present and answer questions about the entire assignment and solution.
