

FKD3030 Literature Survey in Corrosion Science 4.5 credits

Litteraturstudie i korrosionslära

This is a translation of the Swedish, legally binding, course syllabus.

If the course is discontinued, students may request to be examined during the following two academic years

Establishment

Course syllabus for FKD3030 valid from Spring 2010

Grading scale

undefined

Education cycle

Third cycle

Specific prerequisites

MSc-degree with a major in chemistry, materials science or physics.

Language of instruction

The language of instruction is specified in the course offering information in the course catalogue.

Intended learning outcomes

To gain experience in completing a limited literature survey in the field of surface and corrosion science.

Course contents

Collect literature data and analyze the results in order to complete a more limited corrosion-related survey in collaboration with an industry or other research organization.

Course literature

To be agreed with the examiner.

Examination

Based on recommendation from KTH's coordinator for disabilities, the examiner will decide how to adapt an examination for students with documented disability.

The examiner may apply another examination format when re-examining individual students.

Other requirements for final grade

LIT 1-Literature survey, 4,5 hp

Ethical approach

- All members of a group are responsible for the group's work.
- In any assessment, every student shall honestly disclose any help received and sources used.
- In an oral assessment, every student shall be able to present and answer questions about the entire assignment and solution.
