

# FKF3080 Paper Chemistry - Research Front 4.5 credits

Forskningsfronten inom papperskemi

This is a translation of the Swedish, legally binding, course syllabus.

If the course is discontinued, students may request to be examined during the following two academic years

## Establishment

Course syllabus for FKF3080 valid from Spring 2014

## Grading scale

undefined

## Education cycle

Third cycle

## Specific prerequisites

Fibre Technology basic course or similar.

## Language of instruction

The language of instruction is specified in the course offering information in the course catalogue.

## Intended learning outcomes

A thorough knowledge and overview of the Paper Chemistry research field and on the research concerning colloidal chemical behaviour of nanocellulose.

## Course contents

Lectures concentrated to a 3-4 day period.

## Course literature

Utvald litteratur och kopior på utdelat undervisningsmaterial.

Selected literature and copies of handouts .

## Examination

Based on recommendation from KTH's coordinator for disabilities, the examiner will decide how to adapt an examination for students with documented disability.

The examiner may apply another examination format when re-examining individual students.

Written exam

## Ethical approach

- All members of a group are responsible for the group's work.
- In any assessment, every student shall honestly disclose any help received and sources used.
- In an oral assessment, every student shall be able to present and answer questions about the entire assignment and solution.
