

FLF3006 Literature Course; Research Seminars at ECE 7.5 credits

Läskurs; Högre seminarier på ECE

This is a translation of the Swedish, legally binding, course syllabus.

Establishment

Course syllabus for FLF3005 valid from Spring 2019

Grading scale

P, F

Education cycle

Third cycle

Specific prerequisites

Qualified are those that are admitted to the research education in "the learning and communication of the Technological sciences" or adjacent third-cycle subject areas/specialisations.

Language of instruction

The language of instruction is specified in the course offering information in the course catalogue.

Intended learning outcomes

On completion of the course, the doctoral student should

- be expected to present at least one text per academic year and be expected to be "reader" of at least two texts during the course.
- be able to account for, discuss and analyse research presented in the course within the field "the learning and communication of the Technological sciences".

Course contents

Lectures/presentations within the program of the graduate seminars of the ECE school.

Examination

- PRE1 - Oral presentation, 7.5 credits, grading scale: P, F

Based on recommendation from KTH's coordinator for disabilities, the examiner will decide how to adapt an examination for students with documented disability.

The examiner may apply another examination format when re-examining individual students.

If the course is discontinued, students may request to be examined during the following two academic years.

Other requirements for final grade

- Compulsory attendance and active participation. Any eventual absence (at most 25%) can be compensated for by submitting a complementary assignment.
- Oral and written (are decided in consultation with course participant)

Ethical approach

- All members of a group are responsible for the group's work.
- In any assessment, every student shall honestly disclose any help received and sources used.
- In an oral assessment, every student shall be able to present and answer questions about the entire assignment and solution.
